

## **Clatterbridge Hospital Pre-treatment Planning Suite**

**The Pre-treatment Planning Suite has undergone a full refurbishment to create better access and patient flow within a larger, naturally lit area within the existing hospital.**

The works comprised the strip out and refurbishment of the X-Ray simulator rooms and ancillary rooms in the main live hospital at Clatterbridge including associated Mechanical and Electrical services, together with isolated alteration works to the circulation areas to create a pre-treatment simulator area.

The suite has seen the replacement of wall, floor and ceiling finishes and created a new patient reception and waiting area.
