

St John Rigby College, Gathurst Road, Wigan

New Sports Hub – Contractors Design Element of Roof & Cladding

Whitfield & Brown were delighted to be appointed to undertake the construction of a new Sports Hub for St John Rigby College.

Situated on the site of an existing field where an old brick and slate store building was recently demolished the works comprised the construction of a new sports building which includes a gym, changing facilities, 4nr classrooms, a café / large glazed foyer area and paved terrace areas.

Site access was through the main entrance gates to the college campus and the maintenance of public access routes through and around the site was essential. The site was surrounded by temporary hoardings and health & safety was paramount due to the nature of the site.

The structure is of steel frame construction, with single ply roof covering to low level, flat roof and main entrance lobby roof. The upper roof level is of mono pitched roof construction. The main entrance lobby and café areas were both constructed with kawneer glazed curtain walling system.

Key Aspects

- ✓ Centrally located within the Campus amongst teaching staff and student circulation.
- ✓ Roof and Cladding full contractors design element.

Client:	St John Rigby College
Architect:	Seven Architecture Ltd
QS:	SDA Consulting LLP
Value:	£765,074
Contract Period:	24 weeks
Procurement:	JCT Intermediate with Contractors Design 2011
