

Aintree Hospital Scanner Suites

UNDER CONSTRUCTION

This logistically complex project consists of the construction of 2 no single storey extensions within 2 courtyards, associated alterations and refurbishment to existing buildings including lead lined windows, doors and partitions and internal fit out of the new suites with mechanical and electrical services.

To avoid disruption to the neighbouring suites, a suspended walkway at varying levels, provides the access and egress to the site.

Key Aspects

- ✓ Client Liaison
- ✓ Working in an occupied environment
- ✓ Logistically Complex
- ✓ Restricted Access
