

## **Botanic Park, Liverpool** **Construction of New Changing pavilion**

The project comprised the construction of a new single storey changing pavilion for the use of the local community in the Kensington Regeneration Zone.

Liverpool City Council worked in partnership with Community 7 - part of the Riverside Group, Football Foundation, Liverpool Neighbourhood Regeneration Programme, Active City, Kensington Regeneration and Sport England to develop and fund the project.

As well as being a striking design, the unique structure contains 8 secure changing rooms, storage and a community meeting room with kitchen facilities.

“It is an amazing resource for the local community and will enable many adults and children to use the park and enjoy the local green space for years to come.”

Tom McGuire, Community 7 Director

building on our reputation
