

## **Eastham Oil Refinery** **Extension to Weighbridge Office (Design & Build)**

The works comprised the construction of a new office building and link to the existing weighbridge office and associated services, external works and drainage.

The project was undertaken on a Design & Build basis for which we appointed Mersey Design Group to provide a comprehensive architectural service.

Following on from the initial scheme, we successfully negotiated an additional phase which involved upgrading the existing weighbridge office.

“the works comprised the construction of a new office building and link to the existing weighbridge office”.
