

## **Royal Liverpool & Broadgreen Hospital Construction of St Paul's Eye Care Centre**

**The construction of the specialist Eye Care Centre at Royal Liverpool and Broadgreen Hospital provides a sophisticated environment offering the latest facilities in ophthalmic care.**

Air conditioned throughout, the centre comprises new treatment rooms, counselling and consultation areas, waiting rooms and offices. This is in addition to a reception area, storage and wash rooms. State-of-the-art photographic-processing facilities have also been installed within the centre.

An extension to the existing building, St Paul's Eye Care Centre has been constructed some four meters above the ground floor and is situated on the first floor of the hospital.

As well as the work carried out on the eye care centre specifically, Whitfield & Brown has also delivered a new link bridge to the main hospital building.

“creating a sophisticated environment offering the latest facilities in ophthalmic care”.

building on our reputation
