

## Ward 53 delivery suite and main entrance

Wirral University teaching Hospital NHS Trust

The project comprised of a complete strip out and full refurbishment to ward 53 within the maternity unit.

The ward, located over 2 floors was decanted during the construction works and at first floor level was on the adjacent corridor to ward 54 which Whitfield and Brown have carried out a similar refurbishment in preparation for the recovery suite for ward 53.

In addition to the general upgrade to walls, floors, plumbing and electrics Whitfield and Brown managed the removal of asbestos floor tiles and the replacement of the ventilation and specialist air conditioning systems before commencing on the construction of a new main entrance at ground floor level.

The improved facility now comprises of a 22 bed specialist nursing ward, 4 individual birthing suites with birthing pools, recovery suite and clinical operations.
